#### HOW HARD THEY DIE!

The actions of the people of Regina  
with regard to the Soo extension have  
passed a joke.

A public meeting was held in that  
town on Friday evening last to discuss  
the question. Mr. Mowat made the  
statement that when the round house  
at Regina was burned down some  
years ago and the divisional point was  
moved to Moose Jaw, some doubt  
arose in the citizens' minds as to the  
intention of the C. P. R. We are  
surprised at the chill-like simplicity dis-  
played by these people, for no sensible  
community could have any doubt on  
the subject. The removal of that  
round-house was but the beginning of  
the end. The same speaker states

"The route between Regina and the  
boundary was much superior to the by way  
of the Souris valley and Moose Jaw creek to  
Pasqua. By going over the Regina route a good  
farming country would be opened up,  
and a good water supply could be obtained.  
As to the other route, most of our citizens  
knew that the land towards the Dirt Hills  
was nothing but a bed of alkali. And as to  
springs everyone knew that there were no  
such things there, and Mr. Van Horne had  
himself confessed that the Regina water was  
better than that of Moose Jaw, that fact being  
one of those that determined the situation  
of the capital.

Mr. Mowat surely spoke without  
thinking. Anyone familiar with the  
geography of Assiniboia knows that  
the lands along the Moose Jaw creek are  
suburban to the Regina district, and in the order of things there could  
not be any bad land so near that garden  
den of the universe.

The Moose Jaw Creek, (Mr. Mowat  
to the contrary notwithstanding,) is fed  
by springs. There is not a stretch of  
five miles in the entire course of the  
stream in which springs are not found.

With regard to the statement that  
Mr. Van Horne had confessed that  
Regina water was better than that of  
Moose Jaw, we wish to relate an incident  
connected with Mr. Van Horne's trip.  
The engineer who pulled the  
special, we are informed, in order to  
make a fast run, ran past Pilot Butte  
without taking water. This he did at  
Regina, (a rare occurrence now-a-days,) and the Master Mechanic who was on  
board the train lectured that engineer  
for using water that was forbidden ex-  
cept when absolutely unavoidable.

"Mr. J. W. Smith," says the newspaper report, "referred in strong terms to the absence of one or two of the  
leading citizens." We are glad to learn that there are at least one or two  
sensible men in Regina. Mr. Smith makes a threat that if the C. P. R. did  
not do justice to Regina, they (the  
Regilians) would hold out inducements  
to other Railway companies to come in.  
How the C. P. R. authorities  
must have trembled when this dire  
news was communicated to them.

Mr. W. C. Hamilton thought there  
would be no difficulty about forming a  
company or inducing one to bring a  
line into Regina. We agree with Mr.  
Hamilton. We are confident that the  
people of Regina could build a line  
without forming a company at all.

Mr. McInnis referred to the letter  
of Sir George Stephen, and in order to  
clear up any doubts as to its authen-  
ticity, stated that it had been published  
in the columns of the *Standard*.

The experience Regina has passed  
through has been unhappy. How  
expectation changed to anxiety—anx-  
iety to doubt—doubt to despair! And  
in the misguided and frantic agitation  
of Friday night the people of that town  
have exhibited a stupid, short-sighted  
course, from the effects of which  
they will suffer for many a day.  
It is now manifest to the country at  
large that they have seized upon the  
"Soo" line as a last resort. Their  
actions plainly state that if they do  
not get this road all hope must be  
abandoned. That they will not get  
the terminus is past the shadow of a  
doubt, and their blundering course is  
only causing them to appear ridiculous  
in the eyes of the public.

#### THE DOMINION HOUSE.

#### THE CASE OF THE MAIL CLERKS.

The following we clip from a strong  
article on the above subject published  
in the *Calgary Herald*:

Up to this time no impression has  
been made on the Government. In  
fact, one member of the Cabinet is  
credited with stating that if the railway  
mail clerks do not wish to accept  
what is offered them, "plenty fellows  
can be found to take their situations."  
This is certainly not the proper spirit  
for members of a Government to approach  
the discussion of a subject of this kind.  
It is not to be forgotten that the railway  
mail clerks were brought into this service from  
the Eastern provinces by certain inducements  
at a time when it was no easy matter to secure an efficient service;  
that they have given many years of  
service to qualify them for their special  
duties; and that the service is performed  
in a manner that leaves nothing to be desired.  
Moreover, it is clearly the duty of the Department,  
the Government and Parliament, in  
dealing with this question, to settle it  
on its own merits. The railway mail  
service in the east is one thing; that of  
the west is quite another thing. The  
circumstances and surroundings must  
be considered by themselves, if injustice  
is not to be done. No inflexible rule applicable  
to the whole Dominion can be laid down.  
What is right and fair for the North West service  
should be paid, irrespective of the remuneration  
elsewhere.

It is now stated that the Postmaster  
General has absolutely refused to do  
the act of justice required of him.  
Nevertheless, the case of the mail  
clerks is so very strong, it is backed  
by so large a body of public opinion,  
that it can not be dropped in this way.  
It is still open to the clerks to press  
their case and to urge their friends in  
Parliament to do the same. There is  
a manifest injustice to be remedied,  
and it should receive attention. The  
Government can not afford to ignore a  
practical grievance of this character.  
The railway mail service will suffer  
if this is done. The Post Office is admirably  
served by these efficient clerks, and it would be a most unwise thing  
to drive them out of the public service.  
When the Department has so good a  
body of subordinates in the Northwest  
it should retain them when all that is  
asked is the simplest justice and only  
ordinary remuneration. The clerks  
have asked only for salaries on which  
they can make ends meet. Surely the  
Government and the people of the  
Dominion can offer them nothing less.

#### A CARELESS SHOT.

On May 7th Isaac Moorshead was  
walking along a street in London, Ont.  
picking water-cresses, when he saw a  
jug on the ground and was going to  
pick it up when he heard another lad  
shout from across the Thames and tell  
him to leave it alone. Moorshead  
drove nearer the jug, when he heard a  
shot and immediately felt a stinging  
sensation on the left side of the head,  
just behind the ear. The youth across  
the river had shot him with a pistol.  
Edward Small, who is only twelve  
years old, was arrested for the offence  
and appeared before the magistrate  
next day on a charge of shooting  
and wounding. The case was adjourned,  
Small being bailed by his mother.

#### MERCIER'S MALFEASANCE.

The case of the Queen vs. Ex-Premier  
Mercier for alleged malfeasance of  
office was open before Judge Chaveau  
in the police court on May 30. Mack-  
in, assistant provincial treasurer; Joseph  
Bolivine, assistant provincial secre-  
tary; and Gus Grinier, Clerk of the ex-  
ecutive council, were the only witness-  
es heard. Bolivine testified as to cer-  
tain sums paid by J. C. Langlois, the  
late provincial secretary, on Mercier's  
order among which was a check for  
\$20,000.

Not left nor slow to change but firm."

FRIDAY, JUNE 3, 1892.

#### THE "SOO" AND THE STANDARD.

When the intention of the C. P. R. authorities with regard to the building of a line to the south east was announced, two places were mentioned as competitive points for the northern terminus: Moose Jaw and Regina. The *Times*, realizing that Moose Jaw was in possession of natural advantages, has refrained from wearying its readers by harping upon this subject. Not so the *Regina Standard*. The *Free Press* remarks that if "Regina does not get the 'Soo' line, it will not be for want of agitation." It might well add "and not for want of misrepresentation."

Every week the people of Regina have been treated to effusions upon this burning question. Heaven and earth have been moved. The town of Regina has portrayed as a paradise : the surrounding district as an El Dorado.

In an editorial in the *Standard*, some months ago, the editor of the *Times* was accused of breaking the harmony that had hitherto existed between the towns of the Territories in attempting to boom the town of Moose Jaw by decrying Regina. For the purpose of showing the *Standard's* lack of consistency, we reprint two articles which have recently appeared in the columns of his paper. On May 23rd the following appeared :

"The people of Regina have the promise of the Government by the late leader, Sir John A. Macdonald, as well as the promise of the C. P. R. by its former president, that a railway connection would be made here from the south. We are untrue to our best interests if we do not insist upon the fulfilment of those promises. We think a public meeting should be held and the whole case properly represented to the Government. We are not asking for favors or unreasonable concessions. The public interest will be much better served by bringing the road directly through the fine tract of country directly south of Regina. A railway along the Moose Jaw creek would be almost useless for colonization purposes, as the land across the creek is unfit for settlement. The Government would therefore be justified in offering the company some inducement to place the road where it will best promote settlement. But it is our duty to be up and doing, so that the Government and the parliament now in session may be made acquainted with all the facts."

Last Monday the *Standard* contained the following choice production:— "Sept. Whyte on his return to Winnipeg informed a Free Press reporter that no decision will be given in regard to the terminus of the 'Soo' extension until the return of engineer and land examiner, who have been sent out to inspect the relative value of the lands through which the road would run. The petty genius that guides the Moose Jaw Times to its destiny, says that Mr. Van Horne was very explicit in stating to citizens of our neighboring borough that it was the intention of the C. P. R. authorities to make the junction not at Regina, but at some point west of it. Mr. Whyte's statement however flatly contradicts that of the Moose Jaw pressocrat, and corroborates the reports of the Van Horne interview in the *Regina papers*. The Moose Jaw dog in the manger says the people of that town will be 'entirely' satisfied so long as the 'Soo' road does not enter Regina, even though it do not go to Moose Jaw. We believe the statement to be a libel on the people of that town. If we mistake not, they are much broader, mentally, morally, physically and spiritually, than their 'leader of public opinion.' For our part if the road does not join the main line at Regina we hope to see it go right into Moose Jaw."

Of the Editor of the *Standard*, himself, we will endeavor, even while defending ourselves against his attack, to speak without warmth. With an editor who for want of better argument, uses cheap, insulting epithets that fit anywhere, and save a man mentally lay the trouble of thinking, we have nothing in common. Though we may often think his reasoning on public questions weak and childish, though we may sometimes smile at his extraordinary efforts to boom his town, we cannot but admire his use of Billingsgate when his spleen becomes enlarged, and the exuberant fertility of his imagination when he gives to his readers what he is pleased to call facts. Nor will we depart from the etiquette of polite journalism because we have to deal with a man who does not, in his editorials, use the language of a gentleman.

His misrepresentations regarding this district are simply contemptible. The surveyors who ran the trial line to Pasqua, report that it passes through excellent land for mixed farming, and their unbiased testimony in its favor is surely of more weight than the vaporings of the *Regina Standard*.

We did not say in our article commented upon that the people of Moose Jaw "will be entirely satisfied if the 'Soo' road does not enter Regina, even though it do not go to Moose Jaw," nor anything that could by any possibility be interpreted as having that meaning, except by one who wilfully and grossly misinterprets and misrepresents. Our statement was as follows:—

"(Mr. Van Horne) was explicit in his statement that it is the intention of the C. P. R. authorities to make the point of juncture not at Regina, but west of it,—presumably where it is now located at Pasqua. These statements made by Mr. Van Horne are not in accordance with the reports of the interview at Regina as set forth in the *Regina papers*, but are, nevertheless, entirely satisfactory to the people of Moose Jaw."

The editor of the *Standard* is trying to talk the C. P. R. into a most absurd error, but has surely never encountered a more perplexing or a more difficult task than when he attempts to persuade the authorities of that read, that the town of Regina is a proper site for a railroad centre.

#### LAND ACT AMENDED.

On Friday last a Bill making some amendments to this Act were introduced in the House of Commons by the minister of the Interior. Three clauses of this Bill are of special importance to settlers. We quote from the *Free Press* in regard to these clauses:—

"Clause 3 strikes out the words 'or here after obtain' in the original act, because the pre-emption privileges have been abolished, and adds a provision so that a settler may on option reside on his first homestead while retaining the patent for a second homestead, provided such second homestead adjoins the first. He must, however, cultivate a substantial area on the second homestead."

Clause 4 extends the time for homesteading from June 2nd, 1887, to June 2nd, 1889. As the law now stands, those who had not complied with the conditions of their entry before June 2nd, 1887, are not entitled to another entry, and it has been contended that this is unfair to those who had homestead entries in 1886, when second homesteading was abolished and who, although they complied with their homestead duties after the date mentioned, were induced to settle in the country on the strength of the second homestead provision. The Government had never admitted that this argument had good foundation in law, but the extent to which homesteaders have been availing themselves of the second homestead privileges is so limited and in order that every possible cause of dissatisfaction may be removed the new clause was proposed.

Clause 5 provides facilities for the closing of roads where the statutory road allowance is not suitable for the purposes of a highway. The intention is to give the Lieutenant Governor of the Northwest power, with the consent of the governor-in-council, to close up such road allowances and take other land for roads and authorize such disposition of the original as he deems expedient in the public interest.

Settlers who are in a position to, and who do homestead their pre-emptions, under the act of last session, will, by

the first clause above cited, be saved the useless expense of building and residing on their second homesteads and will also be saved considerable expense... and inconvenience in obtaining their patents for such homesteads.

By the second clause settlers will realize the merit of perseverance. They have for years been persistently demanding that the privilege of second homesteading be given to all settlers who came to this country between May 25th 1883 and June 2nd 1886,—the former the date when the Act granting the right of second homesteading had been assented to—the latter the date when the Act had been assented to which took away this power; and thus upon the ground that whether the original giving of this right was or was not in the public interest, it had been passed as an inducement to settle up this country. Settlers who came to this country with that promise, and, it might be, influenced partly or largely by that inducement, viz. that upon completion of their duties upon their first homesteads they would be entitled to obtain another homestead or homestead and pre-emption—should not be deprived of this asset without their consent. The Government on the other hand, refused to give the right of second homesteading except to those who had been entitled to their patent for their first homestead on or before June 2nd 1887, on the ground that the Act granting the right to homestead a second time had not been found in its operations to be in the public interest. The persistent demands of the settlers have, however, won the contest.

The third clause cited above will meet cases which however are not frequent in the Moose Jaw district—though we believe there are a few of them—where the surveyed road-allocation is impossible and a road cannot without considerable expenditure be made. It provides for the opening-up of another road in lieu thereof.

These amendments are in the public interest and will, we hope, become law.

#### A WEEKLY HALF-HOLIDAY.

A movement has been set on foot during the present week to institute a weekly half-holiday. A paper has been signed by the majority of the business people of Moose Jaw agreeing to close their establishments every Wednesday afternoon throughout the summer.

We are glad to find this progressive spirit amongst Moose Jaw people. Experience has proved that, where a holiday of this sort is instituted the result is a decided gain to the community. This movement has been vigorously pushed and we are glad that it has been brought to a successful issue.

#### EDITORIAL NOTES.

Dalton McCarthy, M. P., will leave for England shortly to argue the Manitoba school case.

Louis P. Kribs, who has been news editor of the Toronto *Telegram* since its inception, and chief of its Parliamentary staff, has severed his connection with that paper, having accepted a more lucrative position.

The royal commission on Crofton colonization has just issued its third report. It states that Manitoba settlers have now prepared 3,500 acres for cultivation, against 2,300 last year. The total value of buildings and stock is about £16,000 sterling. At Saltcoats, in the Northwest, is reported, the acreage cultivated shows only a slight increase.

The London Times of May 12 says: "The committee formed, under the presidency of the Marquis of Lorne, for the restoration of the library of Toronto University have brought their labor to a successful close. Having sent out about 30,000 volumes, they are now forwarding, as a last instalment, some 350 volumes of the Prussian scientific libraries, the generous gift of the German Emperor."

Sir Oliver Mowat having decided that the brewers and distillers in Ontario shall pay license of \$250, they have appealed to the Dominion Government for protection, on the ground that the manufacturers of beer and

spirits have already obtained a license from the Dominion government, and that the question is one of trade and commerce. Sir John Thompson is understood to have advised the brewers and distillers to bring a test case before the courts.

The following was the equipment of the Canadian Pacific Railway on December 31st, 1891: Locomotives 530; First and second class passenger cars, baggage cars and colonist sleeping cars 517; First class sleeping and dining cars 73; Parlor cars, official and passengers' cars 28; Freight and cattle cars (all kinds) 14,077; Conductors' vans 233; Board, tool and auxiliary cars and steam shovels 398; Lake steamships—Alberta, Athabasca, Manitoba,

west, felt that his conference of the province of Quebec should go out and see that magnificent domain and judge for themselves. With this end in view a grand episcopal excursion has been organized to leave on Monday evening."

#### EDITORIAL NOTES.

The sales made by the Canadian Pacific Railway land department at Winnipeg for May, just ended, are the largest in the history of the Company since the days of the boom. During the month considerably over 66,000 acres were disposed of. The major portion of this was in Manitoba, and much of it in the south-western part of the province. For the corresponding period last year only about 12,000 acres were sold, the sales this year having increased fivefold. The greater portion was disposed of to actual settlers.

Mr. Robert Watson, M. P. for Marquette, has forwarded his resignation to Ottawa and on May 26th was sworn in by Governor Schultz as a member of the Greenway Cabinet. Mr. Watson is the portfolio of Minister of Public Works, Smart relinquishing that to take the provincial secretaryship. Mr. McLean, the former secretary, is to hold a Cabinet seat without portfolio. The shuffle is likely to result disastrously to Mr. McLean, as it reduces even the slim chance he had to carry his constituency at the forthcoming election. The electors are greatly opposed to increasing the number of the Cabinet, thinking that already Manitoba is too much governed. The election contest is daily growing warmer. The Conservatives have candidates in nearly every constituency, and the magnificent work they have done in adding names to the voters' lists just closed demonstrates how earnestly they are fighting. Their organization is much more perfect than that of the Greenwaysites. When Marquette is opened it is stated that Senator Bolton will contest it. He was defeated by Mr. Watson before, but this time will make the attempt as a free trader.

Mr. Frank Oliver, M. L. A. Mr. F. E. Wilkins, M. L. A., for Red Deer, contributes an interesting description of his district, illustrated by a pretty view on the Red Deer river and by one in the town of Red Deer. The editor describes the Calgary & Edmonton railway. These articles and illustrations cannot fail to prove of great benefit to the districts treated of, especially as a wholesale distribution of them is to be made by the Edmonton town council.

Mr. Michael Davitt's statement that all the provinces except Ontario are immersed in debt is vigorously denied by the editor. The East Kootenay district of British Columbia, especially its mineral wealth, is done ample justice in an article by Mr. Pellow Harvey, of Golden. A description by Dr. Selwyn, director of the geological survey, of his exploration in the Crows Nest Pass last summer and a mass of miscellaneous matter relating to Manitoba, Northwest Ontario, railway and immigration matters completes a most interesting and valuable issue.

Mr. Burrows announces that his June issue will be largely devoted to the Calgary district of Central Alberta and that in July he will publish a special summer number for the city of Winnipeg.

#### GENERAL NOTES.

##### Last Date from The Sun.

A series of four round trip excursions from all points in the Maritime provinces to the Canadian Northwest has been arranged by the C. P. R. to take place on June 13th, 20th, 27th and July 1st, when tickets will be issued from Halifax at the following rates: To Deloraine, Oxbow, Moosomin, Nesbitt and Binscarth, \$28; to Moose Jaw, Regina and Yorkton, \$30; to Calgary and Prince Albert, \$35; and to Edmonton, \$40. The tickets are good to return within six weeks of the date of issue. Those taking the excursion of the 27th prox. can reach Edmonton in time for the C. P. R. land sale, which will be held there on July 5th, and those wanting to see the Winnipeg Industrial Exhibition will be in time by leaving on the 18th July.

##### An Awful Warning.

Henry Shelton is pretty well known among the young men of a certain town in the United States. He takes rides with drivers out for a spin through the park. The other day Shelton got on the seat of a furniture wagon with the driver, a friend of his named Jack. Jack drove for a warehouse on Olive street, whose owner has read Dickens, and calls it the Panteneicon. "How do you pronounce the name of that warehouse of yours?" asked Shelton. The Panteneicon, said Jack. Shelton made an effort to repeat the word, gasped and fell sideways off the seat. Jack caught him by the coat with one hand, stopped the horses and let Shelton down to the street. Then jumping down after him he found that Shelton was dead. A blood vessel in the heart had been ruptured. The doctors say it was caused by the effort to pronounce the word. Shelton was colored and ignorant, and it is believed that the combination of physical and mental labor involved in the pronunciation was the cause of rupture.

##### Northwest Indian Supply Contracts.

The department of Indian affairs have accepted the following contracts: Hudson Bay Co., for tea tobacco, general groceries, flour, bacon, day-goods, hardware, harness, agricultural implements and tools for the whole of Manitoba. Flour for the Northwest Territories goes to the Lake of the Woods Milling Co.; Joyner & Elkington of Qu'Appelle and Smith & Brigham, of Moosomin who were lowest tenders.

G. F. & J. Galt, of Winnipeg, get a slice of the groceries, including tea. The Hudson Bay Co., and Donoghue, of Kingston, also have a share. The Hudson Bay Co. secure the contract for bacon, including a large portion of Canadian cured, which Hughes M. P. contended for early in the session. Hardware, harness, tools and implements go to Miller, More & Co., Toronto; Borbridge, Ottawa; Curran & Edwards, Qu'Appelle; Smith, Ferguson and Co., Regina; Garland, Ottawa; Andrews, Thornbury, Hamlin and Ayers, Lachute, and the Sanford Manufacturing Co., Hamilton.

##### The Same Old Story.

Recently W. A. Thompson, a Canadian farmer of Cheltenham, Ont., arrived in Buffalo from New York. He was a victim of the gang of swindlers known as green goods men. It was the same old story. He went down to New York on the understanding that he could buy \$7,000 counterfeit money for \$500. He was met by one of the swindlers at Poughkeepsie, taken to New York, plunked down his \$500, saw the bogus \$7,000 counted out and apparently ran off.

box, which he was cautioned not to open till he reached Buffalo. On arriving at Buffalo he opened the box and found it contained some paper and a piece of brick. He departed for home a sadder and wiser man, out his \$500 and his expenses to New York and back, as he deserved to be.

## LOCAL AND GENERAL NEWS.

Several loads of wheat were sold on Monday and Tuesday.

Mr. Spicer, who was some ten miles south on Tuesday night states that several inches of rain fell at the point where he was staying.

W. D. Palmer, River St. East, sole agent for the Karn Organ. Received highest award and latest medal over all manufactures in Canada. Heintzman Pianos, Raymond Sewing Machine Needles on hand. Oils a specialty.

Life of Charles H. Spurgeon. "The Greatest of Living Preachers," by Russell Conwell, L. L. B., D. D., L. L. D. The Napoleon of Holy Warfare is Dead. Send in your orders early. 500 Pages. Price \$1.50.

Seymour Green, Agent.

Four trains laden with tea started from Vancouver on Sunday to make a flying trip across the continent. One of them passed this point on Tuesday night and the other on Wednesday. These trains are making the fastest time of trains of their class ever made across the continent. They were sent over the road from Swift Current to Brandon at the rate of 21 miles an hour including stoppages.

### Concert for Dominion Day.

A concert under the auspices of the Presbyterian Church will be held in Campbell's Hall on the evening of the 1st of July. Particulars will be given next week.

### Dominion Day.

The preparations for a monster celebration of Dominion Day continue unabated. Already \$300 have been subscribed. Colored posters will shortly be issued giving particulars. Watch for them!

### The New Bank Is Operation.

We are glad to announce that the firm of Hitchcock and McCulloch Bankers, are now doing business. The old firm, Lafferty and Moore, have transferred their agency at this point to the new firm.

### Moose Jaw Cemetery Company.

Attention is called to the notice found in another column of the annual meeting of the above company: Owing to the fact that all the papers belonging to the Company were burned in the December fire, it will be to the interest of all lot-holders to be present, as the labor of duplicating deeds may prove a difficult task.

### Presentation at Marlborough.

Last week Mrs. Beesley was made the recipient of a handsome Oxford Bible, by the members of the Presbyterian Mission of Marlborough, as a slight token of the esteem in which she is held by the members of that body. The presentation, accompanied by a pleasing address, was made by the Rev. Mr. McGregor, Pastor of the Mission. Although taken completely by surprise, Mrs. Beesley made a suitable reply in which she warmly thanked her friends for their expression of good-will toward her.

President Van Horne passed east on Wednesday night.

Mr. D. H. Scott, Q. C., Regina, has returned from his trip to the east.

Miss Clarke's brick building will be ready for occupation on Monday. It presents a very creditable appearance.

A warm, refreshing rain fell on Wednesday night. Farmers report that the growth of grain is steady.

Among the arrivals at the C. P. R. station, Winnipeg, on Tuesday, were twenty carrier pigeons direct from Ireland.

David Young, a young farmer, was found dead in a section house near Virden on Monday. The cause of death is supposed to be an over dose of laudanum.

Two unfortunate cripples canvassed the town on Wednesday, soliciting alms. They came in on No. 1 and seem to be making a tour of the country.

Mr. Thos. Healey will shortly remove his confectionery to the store at present occupied by Mr. J. McElroy, where he will dispense the ambrosia of the gods to those who thirst.

A sight for the curious was to be seen at the C. P. R. station on Friday, a freight from the west passed through having as a part of its cargo a disabled engine which had evidently been through a pretty tough accident. The cylinders were broken, a hole was punched into the boiler, and rods and bars and rails were twisted every way.—*Regina Leader*.

This week there have been handed in two notices,—one of a concert under the auspices of the Presbyterian Church; the other of a Bazaar under the auspices of the Ladies' Guild of the English Church—and both are advertised to take place in Campbell's Hall on the same night, viz. the evening of Dominion Day. We presume the explanation will be forthcoming next week.

Mr. Watkins' figure.

We are sorry to be unable to report any improvement in the condition of Mr. J. E. Watkins who has been ill for some months. It was hoped that the change from Virden would have proved beneficial. Dr. Turnbull has been in constant attendance and everything has been done to alleviate the sufferings of the patient. His father, Mr. Wm. Watkins, arrived from Medicine Hat on Wednesday evening to be present at his bedside.

**School Board Meeting.**

A meeting of the Moose Jaw School Board was held on Wednesday evening. Present, Messrs. Baker, Sharp, Naismith. After reading of minutes the Treasurer's report was read and accepted.

Account of John Bellamy, \$5.00, was bid over until next meeting.

Sharp—Naismith.—That Secy. obtain monthly report forms and have some printed; also Treasurer's order books.—Carried.

Sharp—Naismith.—That estimates for 1893 be considered at next regular meeting.—Carried.

Naismith—Sharp.—That Chairman obtain flag with Union Jack, size 7 x 12.

### Winnipeg Industrial.

We have just received a copy of the Prize List and Programme of attractions of the Winnipeg Industrial Exhibition, which will take place July 25 to July 29th. We cannot make more than a passing reference to this Prize List. Page 6 contains a schedule of special railway excursion rates. The C. P. R. with their usual enterprise have placed the fares at a remarkably low figure. The rate from this point to Winnipeg and return is \$9.35.

### The Twenty-Fourth in Mid-Ocean.

On board the Empress of Japan the Queen's birthday was celebrated in royal style, a programme of races and other amusements adding to the pleasure of all the passengers. Among the prizes presented the winners of races were "two portraits of the Queen," (two postage stamps); "Pacific memento," (two shells); "an ivory dazzer," (a box of tooth powder); "a fortune teller," (a pack of cards); "no lady should be without them," (hairpins); "a barbarous relic," (face powder); "a silver medal," (a five cent piece), etc.

The annual bazaar of the Ladies' Guild of the Church of St. John the Baptist, will be held in Campbell's Hall on the evening of July 1st.

Presentation to Mr. McLean.

On Tuesday evening a pleasing incident took place at the house of J. W. Bradshaw, when the members of the Ladies' Aid Society presented Mrs. Dr. McLean with a very handsome silver ice-cream, accompanied by the following address:—

Moose Jaw, May 30th 1892.

Mrs. Dr. McLean,

Dear Sister:

As the three years of your work among us is drawing to a close and we are about to separate, we take this opportunity of presenting you with this token of the love and esteem in which we hold you. During the years we have spent together we have shared your joys and sorrows, and in the deep affliction which God in His Providence saw fit to send you home, your peaceful resignation to the will of God set us a noble example that will teach us to trust our heavenly Father for strength to bear whatever trials He may send us.

Words cannot express our sorrow in parting with so zealous a co-worker in our Ladies' Aid Society both in our devotional and business meetings.

We wish you and yours success in whatever field of labor you are placed. May God be with you in all your efforts for the promotion of His Kingdom and when work is ended here below may we all meet above around our Father's throne where parting is no more.

Signed on behalf of the Ladies' Aid Society of the Methodist Church.

Mrs. Bradshaw, President; Mrs. Wilcox, Vice President; Mrs. Rorison, Secretary; Mrs. Bellamy, Treasurer.

Mrs. McLean made a feeling reply in which she thanked her sister-workers for the kind address and valuable gift. Mrs. McLean's departure is a matter of extreme regret not only to members of the Methodist Church, but also to the entire community.
